## FUNK'S "G" HYBRID CORN FOR THE SOUTH

PRODUCE MORE FOOD AND MAKE HIGHER PROFITS IN 1943 BY PLANTING HYBRID CORN!

We are Associate Growers and Sole Distributors for Alabama for Funk Bros. Seed Company—the Pioneer and Largest Hybrid Corn Breeders in the country. Plant G-46 and G-244 for hard corn in 90 to 100 days. These kinds especially recommended to fatten early hogs. G-135 is good crib corn, especially for northern halves of Ala., Ga., and Miss. Our only white variety is G-527W. It is a large 2-eared kind. Matures in about 115 to 120 days. Ask for descriptive folder giving general information and announcing the "700 Series" of Funk's Hybrids. These varieties are prolific and well adapted, and 3 of them are Southern grown.
